Preacher Morgan M. Clough ([facebook](#))

Pastor Morgan was born and raised in the Boston area. At age 13 he was sexually abused and ran to the world of drugs and alcohol to hide the anger and pain. For over 11 years he was in trouble with the law. In 1994 at age 33, his wife Lynn suggested that they go to a local church. After several visits, God began to take that anger and rage away, and Morgan rededicated his life to Christ.

In 1999, after much prompting, Morgan founded New England Raceway Ministries, an organization dedicated to promoting the love of Jesus to the hundreds of thousand NASCAR race fans at Loudon, NH. After several successful seasons and concerts for over ten thousand fans, Morgan was again prompted to move. This time to Tennessee and to take this platform across America.

In 2001, Outreach Across America was formed as a 501c(3) non-profit and has organized outreach events from Miami Florida to New Hampshire at many NASCAR race tracks. They also organized many events for several years at Daytona Bikeweek events where over 1 million bikers would come.

In 2008, God again prompted Morgan to change direction, this time to plant a new and unique church here in Madisonville, TN. On February 10th, 2008 the OAA Worship Center held our first service.

Tommy presently teaches our Adult Wednesday evening Bible study. Our Bible study takes our previous Sunday morning message and asks the question "So what does that mean to me?" We open it up and make a discussion of the topic and HOW it effects our lives and the changes we need to make accordingly.
